## Certificate - Development upgrade

We, as  
**SCAT Europe GmbH**, Waldecker Straße 7, 64546 Mörfelden-Walldorf, Germany

**hereby declare that**

our **Air Valves** product line will be replaced by the improved **Air Valves V2.0** product line.

The successor series V2.0 exceeds the predecessor series mainly in the following performances:

- PTFE diaphragm welded to the housing to prevent displacement
- Additional valve to reduce air pressure resistance for use in preparative analytics
- Optimised Luer-Lock connection with lock to prevent accidental disconnection

The Air Valves V2.0 product line is tested according to the official ASTM / DIN / ISO test methods.

Mörfelden-Walldorf, 21<sup>st</sup> November 2022

Peter Rebehn  
CEO
